MESSAGE FROM THE EXECUTIVE DIRECTOR

The year 2024 has been a remarkable one for the Rural Health Foundation (RHF).

> *"Our commitment to improving healthcare access in underserved communities across Ghana has driven our initiatives and strengthened our partnerships."*

This year, we successfully executed various health outreach programs, trained medical students in Point-of-Care Ultrasound (POCUS), and donated essential medical equipment. We are proud of our impact and the collaborations that have made these achievements possible.

This report highlights our key achievements and financial performance for the year:

KEY ACHIEVEMENTS IN 2024

- Rural Health Outreach

300+

Patients screened in Adaklu:

Including **30 Pregnant women** who also received free ultrasound scans.

- Donations

Portable Ultrasound Equipment Donation:

Donated a Butterfly iQ portable ultrasound device and an iPad to enhance hands-on ultrasound training in bedside diagnostics.

- Training

100+

Medical Students Trained:

Collaborated with the University of Ghana Medical School to provide essential diagnostic skills in Point-of-Care Ultrasound Scanning.

OUR ACHIEVEMENTS IN 2024

- ## Rural Health Outreach

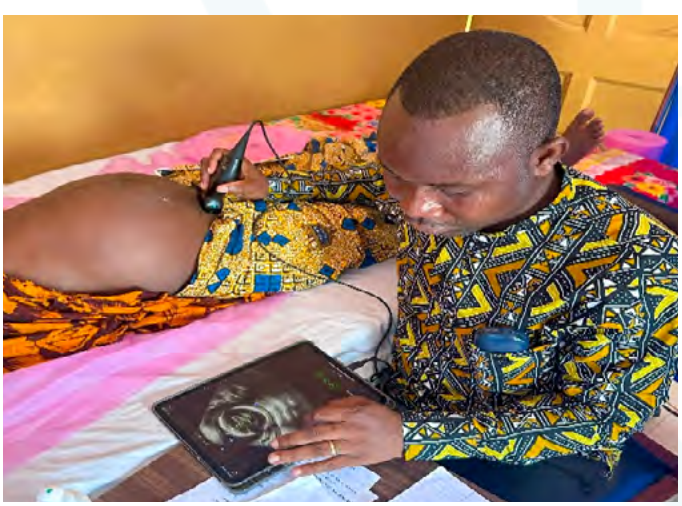

We organized two major rural health outreach programs, bringing essential health-care services to remote communities.

Adaklu Community Clinic - Volta Region

In partnership with local health authorities, we conducted a **two-day general health screening** at the Adaklu Community Clinic. We screened over **300 patients,** including **30 pregnant women** who received free ultrasound scans.

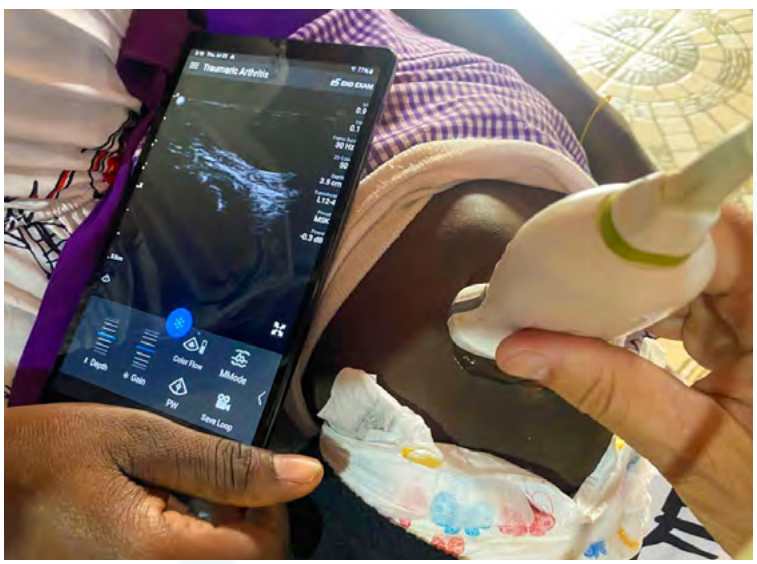

This initiative provided early detection and intervention for various medical conditions, ensuring timely referrals for further treatment.

OUR ACHIEVEMENTS IN 2024

Medical Screening in Kade - Eastern Region

In Kade, we collaborated with a **church prayer camp**, where many patients sought spiritual healing for severe conditions. **Dr. Johnson** and **Dr. Richard** led a medical screening initiative, diagnosing and treating multiple ailments. Critical cases were referred to the **Kade Hospital**, ensuring that patients received the specialized care they needed.

This initiative reinforced the importance of integrating medical and community-based interventions in healthcare delivery.

OUR ACHIEVEMENTS IN 2024

• Point-of-Care Ultrasound (POCUS) Training

In 2024, we successfully collaborated with the **University of Ghana Medical School** to train over **100 students in Point-of-Care Ultrasound (POCUS) scanning.** The training program was well received, and discussions with the **Dean of Students** have opened the possibility of incorporating **POCUS training into the academic curriculum.**

We are currently exploring the best strategies to sustain this initiative and ensure that students graduate with essential diagnostic skills that can improve patient care.

Training the next generation of medical professionals remains a priority for RHF.

OUR ACHIEVEMENTS IN 2024

• Donation of a Portable Ultrasound Device

As part of our commitment to medical education, we **donated a Butterfly iQ portable ultrasound device along with an iPad** to the **Skills and Innovation Lab** at the **University of Ghana Medical School.**

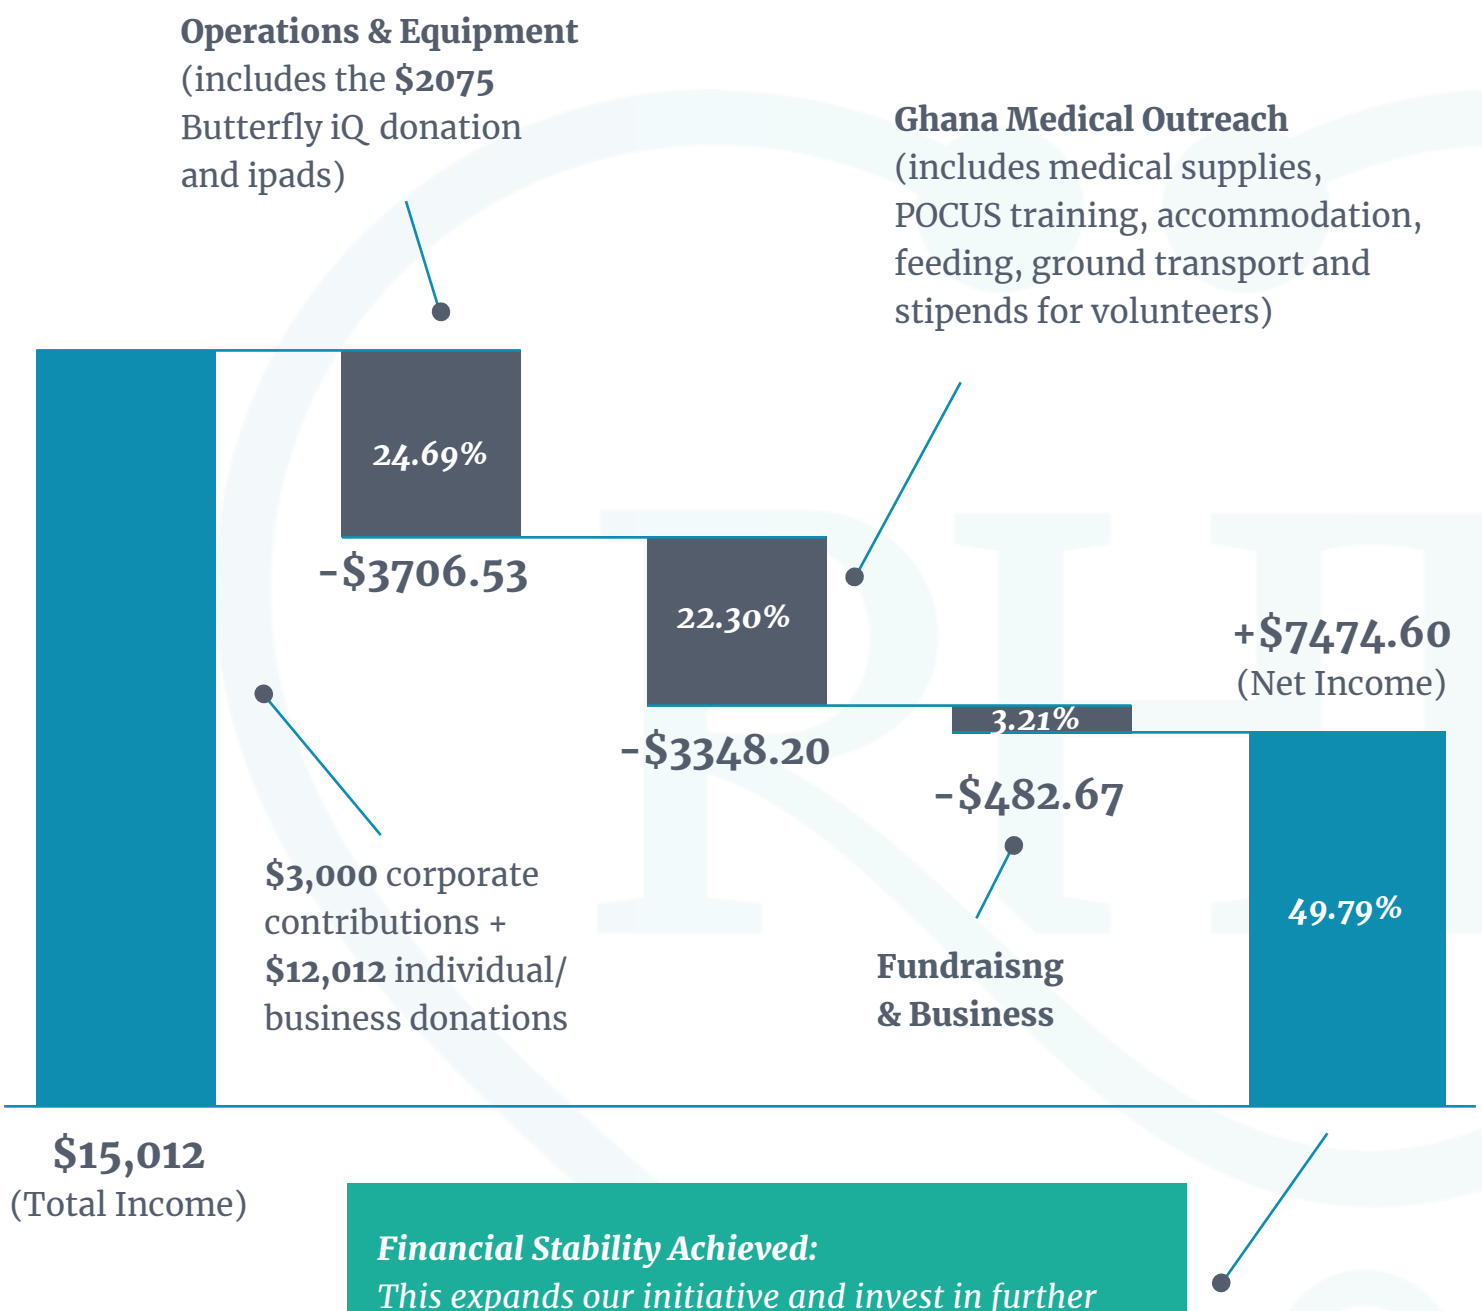

This donation was the **first of its kind** in the lab and was greatly appreciated by students and faculty. The device will enhance **hands-on ultrasound training,** allowing students to gain practical experience in bedside diagnostics.

This initiative aligns with our long-term goal of improving diagnostic capabilities in Ghana through early detection and intervention.

FINANCIAL REPORT FOR 2024

- ## Our Financial Performance Overview:

Financial Stability Achieved:
This expands our initiative and invest in further medical outreach and training programs for 2025.

FINANCIAL REPORT FOR 2024

Our financial performance for 2024 reflects the efficiency and impact of our programs. The total income for the year was ***$15,012*** , primarily from **corporate contributions** (***$3,000***) and **individual** and **business donations** (***$12,012***).

• Operational Expenses

In total, we spent ***$3,706.53*** on operations. We bought a **Butterfly iQ portable ultrasound device** for ***$2,075*** and donated it to the University of Ghana Medical School's skills training lab. We also bought **2 refurbished iPads** to accompany the ultrasound devices we used for the clinics.

The rest of the money was spent on **website maintenance, merchant fees, and outreach planning activities.**

• Other Expenses

We expended ***$3,348.20*** on the Ghana medical outreach. This went towards accommodation, feeding, stipends, and ground transportation for volunteers. We also bought medical supplies and medication for the clinics.

Some of the money also went towards training the University of Ghana medical students on the use of Point-of-Care Ultrasound for early diagnosis of critical medical conditions.

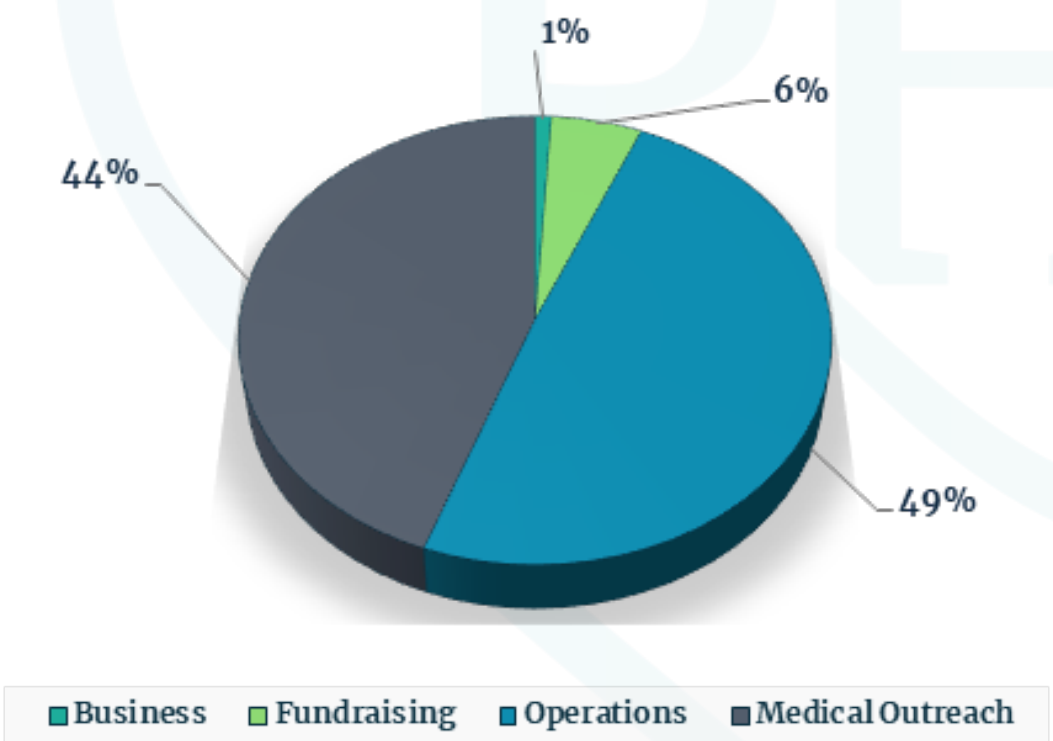

• Net Income

After accounting for all expenses, RHF achieved a **net income of *$7,474.60*** for the year. This financial stability will allow us to expand our initiatives and invest in further medical outreach and training programs in 2025.

FINANCIAL REPORT FOR 2024

- Summary of Expenses

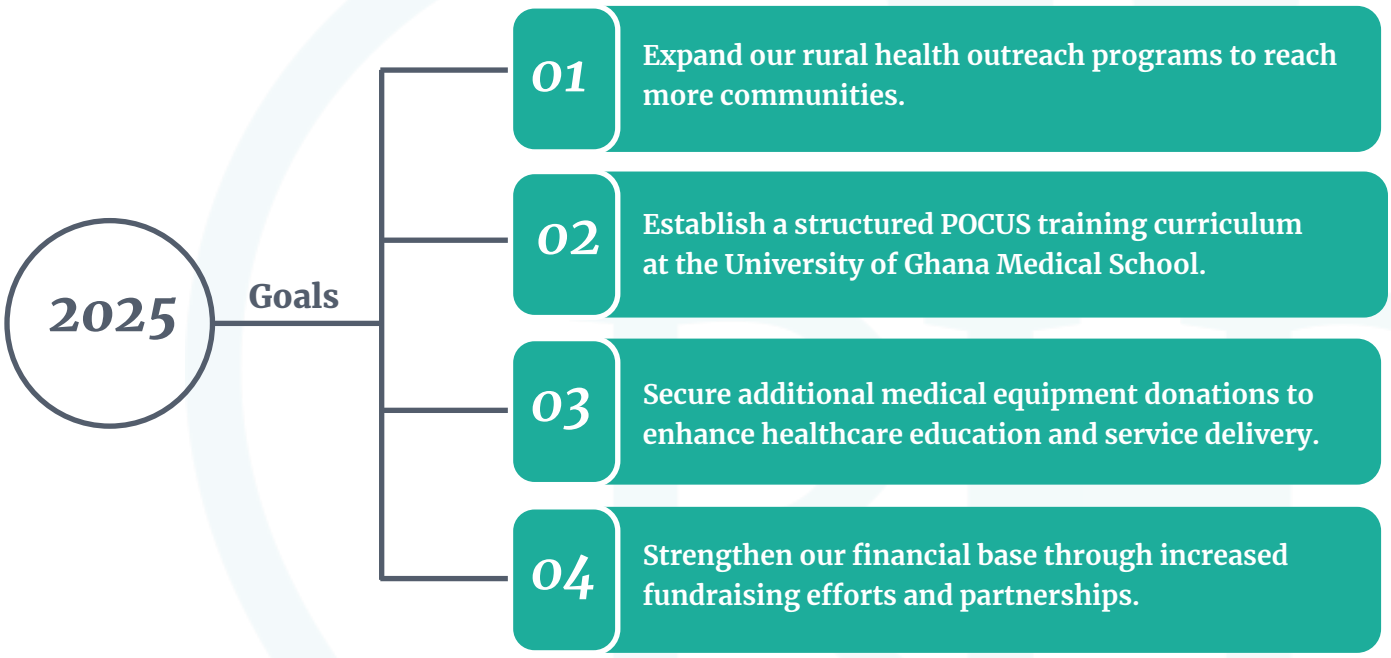

Essential Programs	Expenses
Business	$72.48
Fundraising	$410.19
Operations	$3,706.53
Medical Outreach	$3,348.20
Total Expenses	***$7,537.4***

FUTURE PLANS & ACKNOWLEDGMENTS

As we reflect on a successful year, we remain dedicated to our mission of delivering high-quality healthcare to underserved communities.

• Looking Ahead to 2025

We express our gratitude to all our donors, volunteers, and partners who have contributed to our success this year. With your continued support, we look forward to making an even greater impact in the years to come.

Signed,
Isaac Issah Armstrong
(*Executive Director, Rural Health Foundation*).

THANK YOU
